

Meal Packing Event

Mix. Weigh. Seal. Ship.

In four simple steps, you give hope, as you package nutritious meals for hungry kids and families locally and around the world! This fun, hands-on project is meaningful for all ages ~ from kids to grandparents.

Once packaged, these shelf-stable meals are delivered to the local food pantry and shipped around the world where hunger and malnutrition are a daily struggle. But these kids and families receive more than a meal: you're extending hope through a meal in Jesus' name! Join us to help make a difference in our communities and around the world.

How are the meals packed?

All ages work together to package the meals in a 4-step process!

1. The perfect blend: each bag is filled with 5 ingredients: rice, soy, dried vegetables and a flavoring/vitamin mix.
2. Hit the scales: each bag is weighed to make sure it contains a specified weight for uniform distribution.
3. Seal it up: the sealed bags have a three-year shelf life, although the meals will be eaten long before then!
4. Send it out: bags are boxed, and loaded onto a truck for their final delivery to the hungry.

COME JOIN US AS...
